Chancellor’s Doctoral Incentive Program focuses on students who are interested in applying and competing for future instructional faculty positions at any one of our 23 CSU campuses. Financial aid in the form of loans are provided to doctoral students with the motivation, skills and experience needed to teach the diverse student body of the CSU.

If a participant applies, competes for, and is hired in a CSU instructional faculty position after completion of the doctoral degree, 20 percent of the loan will be forgiven for each year of full-time postdoctoral teaching employment in the CSU. Part-time teaching in the CSU may also be considered for partial loan forgiveness, if the participant teaches at least half-time and has successfully completed the doctoral degree.

In 2017-2018, the California Pre-Doctoral Program will award funds to approximately 70 juniors, seniors and graduate students in the CSU. These funds are designed to enable current students to explore and prepare to succeed in doctoral programs in their chosen field of study. Awards are based on competitive review of student applications and given to current upper-division or graduate students who, in the judgment of the review panel, demonstrate academic excellence while having experienced economic or educational disadvantage, and who are committed to a career in teaching and research at the university level. The program places a special emphasis on increasing the number of CSU students who enter doctoral programs at one of the University of California (UC) institutions.

Students will have unique opportunities to explore and prepare to succeed in doctoral programs. Students will have the benefit of direct one-on-one
guidance afforded from faculty members from within the CSU, and the opportunity
to work with faculty from doctoral-granting institutions. In addition the program
provides:

1. Travel Funds for the student to visit U.S. doctoral-granting institutions and/or to
attend professional meetings appropriate to the student’s development.

2. Development Funds for other related activities, such as student membership in
professional organizations, subscriptions to academic journals, graduate school

materials, for example.

3. A Summer Research Experience following the award of the scholarship, recipients
are given the opportunity at a University of California campus or other U.S. major
research university, fully funded by the Pre-Doctoral Program, so that the scholar
can participate in doctoral-level research prior to enrolling in a Ph.D. program.

We have created three workshops that will provide information on the scholarship,

word and notify any students that you feel will benefit from this opportunity.
