FILM SCREENING: CHICANO PARK, MAY 1, 2017

Join us for a screening of the documentary Chicano Park. From the book Mediating History, "This documentary traces the history of the San Diego Chicano community of Logan Heights, or Barrio Logan. This is a story of artists and community organizers who resisted the encroachment of freeways and urban development which divided their community. In the 1920s, Barrio Logan was the second largest Mexican-American community on the West Coast; but the community was uprooted during the Depression, when large numbers of Mexicans and Mexican-Americans were deported under US government policies intended to protect jobs for Anglos. In the 1960s, Chicano community activists fought to build a park on a parcel of land under the freeway. Community residents, artists and activists discuss the long process of creating Chicano Park, which was finally opened in 1970 on a freeway underpass. The park became the site for community events and expressions from cultural performances to murals. This is a look at a community which set out to reclaim its cultural roots, land, and heritage."

This event is free and open to the public. Refreshments will be served

When: May 1, 2017 at 12:00 pm
Where: Geisel Library, Seuss Room on the UCSD Campus
