ALL NATURAL, AT THE SDSU DOWNTOWN ART GALLERY, THROUGH JULY 16, 2017

All Natural presents the work of seven artists who are working with natural materials or naturally occurring elements to create their finished pieces. Exploring the fringes of photography, sculpture and painting, and intersecting with notions of sustainability, the exhibition highlights ways that each individual extends beyond boundaries to produce provocative and experimental results. With many never before seen works created for All Natural, the selection will take viewers on a journey of the American west from desert to ocean and showcase unorthodox uses of media such as encaustic wax, rock, minerals, precious metals, textile, clay, and other materials sourced from the natural environment.
