** It is important to note that living accommodations are within rural homes and are different from typical housing that students may be accustomed to in the United States (i.e. students may not have a door to separate their room from other parts of the house). We encourage you to speak with Dr. Ramona Perez or the Summer Study Abroad Coordinators if you have special concerns about this issue. **

In order to make your experience in the SDSU Summer Zapotec Language Program the most rewarding experience possible, we ask that you complete the following questions honestly and candidly so that we can arrange your home stay accordingly.

1) Do you have significant physical constraints that limit mobility, e.g., a knee problem that keeps you from climbing stairs or asthma that would prevent you from walking more than a few blocks?

2) Do you have allergies that might affect placement, e.g., animal hair, pollen, smoke? Do you take medications for these?

3) Do you have any dietary restrictions, e.g. vegetarian, vegan?

4) What other considerations should we take into account in aiding you with housing?
