Interns work with students and families, providing targeted support to boost student attendance and family stability. Interns also work on school-wide messaging efforts to positively impact the climate and culture around attendance. They receive regular, ongoing one-on-one supervision. The internship commitment is for August 2018 – May 2019, at a minimum of 12 hrs/week, and can be done for school credit. Interns must be currently enrolled in school to participate.

LATIN AMERICAN NEWS DIGEST SUMMER 2018 INTERNSHIP

The Latin American News Digest is seeking qualified students for a limited number of internships for summer 2018. Because the goal of the Digest is essentially a didactic one, to spread the word about news from Latin America, we feel strongly about providing the opportunity for students to participate in this process. Student writers and researchers contribute to our weekly issues by aggregating and writing summaries of news articles found in Latin American sources. Ideally, internships happen in tandem with an independent study led by a faculty member of the appropriate department, but this is not a requirement. The result is an enriching experience for students who discover a variety of perspectives within the Latin American media. Students are able to identify trends and anomalies in the region, giving them a much greater breadth of knowledge and understanding of the hemisphere in which they live.

Intern Qualifications:

Interns must possess excellent writing skills in English and advanced reading skills in Spanish. Ability to read Portuguese is a plus. Familiarity with Latin American civilization and culture, as well as general current events is highly recommended. The ability to meet deadlines is essential.

VOLUNQUEST ENGLISH TEACHER PROGRAM SCHOLARSHIP

We have a really unique opportunity right now in that we are looking to hire recipients for a three-four month SCHOLARSHIP to teach English in Isla Mujeres, Mexico.

Our scholarship program provides all the training and a teaching certification from the Mexican Ministry of Education, all program participation costs, shared living arrangements for the scholarship recipients, transportation costs, and two cultural excursions/trips to areas in the Yucatan. It's a really great opportunity for recent graduates to gain experience working with an international government, teaching English as a foreign language, and Spanish language skills.

To be qualified for the scholarship you need a bachelor's degree, some experience with kids and a basic Spanish level. Because this is a shorter scholarship than we normally offer, it's a very unique experience for recent graduates to get international real-world experience while looking for other jobs and opportunities both domestically and internationally.
